Springer International

The final decision on manuscript acceptance rests with the Editor in Chief. The date of final manuscript acceptance and the name of the communicating editor follow each printed contribution.

Scope of Marine Biology

The Editors invite and will consider for publication original contributions to the following fields of research:

Plankton Research: Studies on the biology, physiology, biochemistry and genetics of plankton organisms both under laboratory and field conditions. Biological and biochemical oceanography. Environment-organism and organism-organism interrelationships.

Experimental Biology: Research on metabolic rates and routes in microorganisms, plants and animals. Respiration; nutrition; life cycles.

Biochemistry, Physiology and Behaviour: Biochemical research on marine organisms; photosynthesis; permeability; osmoregulation; ionregulation; active transport; adaptation; analyses of environmental effects on functions (tolerances, rates and efficiencies of metabolism, growth and reproduction) and structures; migrations; orientation; general behaviour.

Biosystem Research: Experimental biosystems and microcosms. Energy budgets: flow routes and balance sheets of energy and matter in the marine environment. Interspecific interrelationships, food webs. Dynamics and struc-

tures of microbial, plant and animal populations. Use, management and protection of living marine resources. Effects of man on marine life, including pollution.

Evolution: Investigations on speciation, population genetics, and biological history of the oceans.

Theoretical Biology Related to the Marine Environment: Concepts and models of quantification and mathematical formulation; system analysis; information theory.

Methods: Apparatus and techniques employed in marine biological research; underwater exploration and experimentation.

Copyright

Submission of a manuscript implies that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review or thesis), that it is not under consideration for publication elsewhere, that its publication has been approved by all the authors and by the responsible authorities – tacitly or explicitly – in the laboratories where the work was carried out and that, if accepted, it will not be published elsewhere in the same form, in either the same or another language, without the consent of the copyright holders. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform, electronic data-base, video-disks, or any other reproductions of similar nature, and translations. Photographic reproductions, microform, electronic data-base, video-disks, or any

other reproduction of text, figures, or tables from this journal is prohibited without permission obtained from the publisher. The use of general descriptive names, trade names, trade marks, etc., in this publication, even if the former are not specifically identified, is not to be interpreted as exempt from the relevant protective laws. While the advice and information in this journal is believed to be true and accurate at the date of going to press, neither the authors nor the editors nor the publisher can accept legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special Regulations for the USA

Photocopies may be made for personal or internal use beyond that permitted by Sect. 107 or 108 of the U.S. Copyright Law, provided a fee is paid. This fee is \$ 0.20 per page or a minimum of \$ 1.00 if an article con-

sists of less than five pages. Please pay this fee to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0025-3162, volume, and first and last page numbers of each article copied.

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

Other Regulations

Authors of this journal can benefit from library and photocopy fees collected by VG WORT if certain conditions are met. If an author lives in the Federal Republic of Germany or in West Berlin, it is recommended that he contact Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestraße 49, D-8000 München 2, for detailed information.

Subscription Information

Volumes 79–84 (3 issues each) will appear in 1984. The price of each volume is DM 298.00 or approx. US \$ 118.00. Prices for back volumes are available on request. Correspondence concerning subscriptions should be addressed to the publisher.

North America: Annual subscription rate: Approx. US \$ 744.00 including carriage charges. Subscriptions are entered with prepayment only. Orders should be addressed to: Springer-Verlag New York Inc. Service Center Secaucus 44 Harts Way Secaucus, NJ 07094, USA. Tel. 201/348-4033, Telex 0023 125 994

All Other Countries: Annual subscription rate: DM 1788.00 plus carriage charges. Air-mail delivery on request only. For Japan, carriage charges (Surface Airmail lifted) are DM 195.70; for India DM 109.60. Single issue price DM 119.20 plus carriage charges. Or-

ders can either be placed with your bookseller or sent directly to:

Springer-Verlag
Heidelberger Platz 3
D-1000 Berlin 33
Tel. 0 30/82 07-1, Telex 01-83 319

Changes of Address: Allow six weeks for all changes to become effective. All communications should include both old and new addresses (with Postal Codes) and should be accompanied by a mailing label from a recent issue.

Microform

Microform editions are available from: University Microfilms International
300 N. Zeeb Road
Ann Arbor, MI 48106, USA
